## What to do with your mission partner's prayer letter

Some ideas...

### Read it.

Great! But how much will you remember?

### Pin it up on the church notice board.

Better... but how many people will read it there?

### File it.

Tidy... but filing cabinets don't pray.

### So how can I make the best use of a mission partner's prayer letter?

Try breaking down the main content of prayer letters into easily read and remembered sections. Then you can display it on your notice board. For example...
